Play. Explore. Empower.

About Griddly Games

We are a Vancouver-based company that creates award-winning family, kids, party and board games, as well as STEAM science and art kits that deliver innovative, engaging fun that brings families and friends together.

Griddly Games was founded by Reisa Schwartzman in 2007. Reisa is a mother of three boys, who took it upon herself to deliver wholesome family fun that multiple age groups can enjoy together. Griddly Games offers games that inspire laughter and fun, while promoting an active and healthy curiosity and lifestyle. Griddly Games philosophy is to encourage play, promote exploration, and empower self-development and lifelong learning.

Our Games Promote:

Our games and STEAM science and art kits develop different skills. For information on what skills each product develops refer to the legend below:

STEAM Science + Art Kits

Griddly Games STEAM kits combine science experiments and arts activities to inspire an interest in science and learning through hands-on, experiential play. Using scientific observation, and strategic creative thinking our mission is to encourage a lifelong exploration and self-empowerment in future generations. All the kits provide everything you need to engage in multiple science and art activities.

Just Add Egg Study of Reactions

FAMILY 5+

This bio-organic STEAM kit, **Just Add Egg™**, will inspire the artist and scientist alike! Make your own dinosaur egg, experiment with disappearing eggs, and experiment with getting an egg in and out of a bottle. More than 10 science experiments and art activities included.
